- Or search for Web Platform Installer

# Microsoft Web Platform Installer

The screenshot shows the Microsoft Web Platform Installer 5.0 download page in a web browser. The browser's address bar shows the URL [www.microsoft.com/web/downloads/platform.aspx](http://www.microsoft.com/web/downloads/platform.aspx). The page features a navigation bar with links to Home, Platform, Get Started, Get Web Apps, Get Hosting, Join Programs, and Downloads. The Downloads section is active, showing the Web Platform Installer and WebMatrix. The main content area is titled "Microsoft Web Platform Installer 5.0" and describes the tool as a free utility for installing the Microsoft Web Platform, including IIS, SQL Server Express, .NET Framework, and Visual Web Developer. It highlights that the Web PI also makes it easy to install and run popular free web applications like blogging, content management, and more, with a link to the Windows Web Application Gallery. A section titled "Why you'll love it." lists six benefits: "It's Free" (no strings attached), "It's Tiny" (under 2 megabytes), "It's Smart" (improved validation support), "It's Up-To-Date" (latest version), "It's Cultural" (available in 14 languages), and "It's App-tastic" (popular, free web apps like Umbraco, WordPress, Acquia Drupal, SugarCRM, and more). A large green "Free Download" button is prominently displayed, along with a link to "View System Requirements and File Details". A small disclaimer on the right states that by downloading and using the Web Platform Installer (WebPI), users agree to the license terms and privacy statement for WebPI, which will contact Microsoft over the Internet to retrieve product information.

## Microsoft Web Platform Installer 5.0

The Microsoft Web Platform Installer (Web PI) is a free tool that makes getting the latest components of the Microsoft Web Platform, including Internet Information Services (IIS), SQL Server Express, .NET Framework and Visual Web Developer easy. The Web PI also makes it easy to install and run the most popular free web applications for blogging, content management and more with the built-in [Windows Web Application Gallery](#).

Why you'll love it.

- It's Free**  
The Web PI is a free download with no strings attached. We don't know about you, but we definitely like free.
- It's Tiny**  
Weighing in at under 2 megabytes, the Web PI is the fastest way to get the components that make up the Microsoft Web Platform.
- It's Smart**  
Installing Web Apps or updating the Microsoft Web Platform, Web PI's improved validation support ensures everything just works.
- It's Up-To-Date**  
Whether you're updating or installing components, Web PI always includes the latest version of the Microsoft Web Platform.
- It's Cultural**  
Available in 14 different languages. Choose your language and if a component is available in that language, Web PI will install it.
- It's App-tastic**  
Popular, free and ready to install Web Apps including Umbraco, WordPress, Acquia Drupal, SugarCRM, and more.

By downloading and using the Web Platform Installer (WebPI), you agree to the [license terms](#) and [privacy statement](#) for WebPI. This installer will contact Microsoft over the Internet to retrieve product information. WebPI uses the Microsoft Customer Experience Improvement Program (CEIP), which is turned on by default, see [privacy statement](#) for more information. Some of the Microsoft software obtained through WebPI may use CEIP. To view which software uses CEIP, see [here](#).
